PROFILE

"🔥 Programming is my passion, and every challenge and difficulty excites me."

Hi I'm Sajad, I am a Software Developer who approaches every project with a commitment to efficiency and excellence. With expertise in a variety of programming fields, I create codes that are optimized for performance, easy to develop, and fully compatible with all components.

As a developer, consultant, and responsive maintenance technician, I always test my code against all conditions and exceptions to ensure the best output. I prioritize code quality and performance improvement to deliver a remarkable product.

PROFESSIONAL EXPERIENCE

06/2020 – present
Tabriz, Iran

Self-employed, Full-stack Developer

As the founder and lead developer at Web CodeCrafter. With a strong command of various programming languages and tools, including C#, .NET, .NET Core, ASP.NET MVC, and ASP.NET Web API, I am dedicated to delivering customized solutions that perfectly align with your unique requirements.

My expertise also extends to front-end development, where I excel in crafting captivating user experiences using HTML, CSS, JavaScript, and React.JS. Leveraging popular CSS frameworks such as Tailwind CSS and Bootstrap, I create visually appealing and highly responsive web designs that elevate your brand identity.

To ensure seamless and secure data management for your websites, I possess hands-on experience with SQL and Microsoft SQL Server. My proficiency in Git and GitHub allows me to maintain meticulous version control and code management practices, guaranteeing timely project deliveries within budget constraints.

At Web CodeCrafter, I am unwaveringly committed to delivering top-quality results that consistently surpass expectations. Whether it's a bespoke web application, an innovative e-commerce platform, or any other web development service, I am equipped to address your needs effectively.

EDUCATION

08/2021 – present
Tabriz, Iran

Bachelor of Science - BS, Information Technology,

Iran University of Science and Technology

At the university, I discovered my passion for programming and it became the perfect environment for me to explore various career fields.

02/2021 – 10/2021

Associate of Science - AS, Computer Technology/Computer Systems Technology, edX
